Policy Statement

In compliance with The Financial Intelligence and Anti-Money Laundering Act 2002 (FIAMLA 2002), the Prevention of Corruption Act 2002 (POCA 2002) and the Prevention of Terrorism Act 2002 (POTA 2002), GCMT GROUP LTD (SA) ("Global Capital Markets Limited") have adopted an Anti-Money Laundering (AML) compliance policy ("Policy"). For avoidance of doubt, and the purposes of this agreement and policy, any statement in the text below referring to GCMT GROUP LTD. is also referring to CMTrading as the owner of this site and any reference made to CMTrading herein, will also refer at the same time to **GCMT SOUTH AFRICA (PTY) LTD**, trading as CMTrading and to our subsidiary company, CMT Processing Limited, the company used for the clearing of Credit Card Transactions and any other internal and non-commercial payment processing transactions. The business address of CMT Processing Limited is: Triton Quarters, 2nd Floor, Office 202, Parallel Road to New Port Limassol, No.22, 3045 Limassol, Cyprus.

Scope

This policy applies to all GCMT SOUTH AFRICA (PTY) LTD Trading as CMTrading as well as all its subsidiaries, officers, employees, appointed producers and products and services offered by CMTrading. All business units and locations within CMTrading will cooperate to create a cohesive effort in the fight against money laundering. Each business unit and location has implemented risk-based procedures reasonably expected to prevent, detect, and cause the reporting of transactions required under the FIAMLA. All efforts exerted will be documented and retained in accordance with the FIAMLA. The AML Compliance Committee is responsible for initiating Suspicious Activity Reports ("SARs") or other required reporting to the appropriate law enforcement or regulatory agencies. Any contacts by law enforcement or regulatory agencies related to the Policy shall be directed to the AML Compliance Committee.

It is the policy of CMTrading to prohibit and actively pursue the prevention of money laundering and any activity that facilitates money laundering or the funding of terrorist or criminal activities. CMTrading is committed to AML compliance in accordance with applicable law and requires its officers, employees, and appointed producers to adhere to these standards in preventing the use of its products and services for money laundering purposes. For the purposes of the Policy, money laundering is generally defined as engaging in acts designed to conceal or disguise the true origins of criminally derived proceeds so that the unlawful proceeds appear to have been derived from legitimate origins or constitute legitimate assets.

Generally, money laundering occurs in three stages. Cash first enters the financial Anti-Money Laundering Policy system at the "placement" stage, where the cash generated from criminal activities is converted into monetary instruments, such as money orders or traveler's cheques, and/or deposited into accounts at financial institutions. At the "layering" stage, the funds are transferred or moved into other accounts or other financial institutions to further separate the money from its criminal origin. At the "integration" stage, the funds are reintroduced into the economy and used to purchase legitimate assets or to fund other criminal activities or legitimate businesses. Terrorist financing may not involve the proceeds of criminal conduct, but rather an attempt to conceal the origin or intended use of the funds, which will later be used for criminal purposes.

Regulatory Requirements

Controls, Monitoring and Reporting

The control, monitoring and reporting measures, as contained in the Financial Intelligence Centre Act, 38 of 2001, ("the FIC Act"), as amended, are based on three basic principles of money laundering detection and investigation, i.e. that:

- intermediaries in the financial system must know with whom they are doing business;
- the paper trail of transactions through the financial system must be preserved;
- possible money laundering transactions must be brought to the attention of the Financial Intelligence Centre ("the Centre") and the investigating authorities.

The Compliance Officer has a responsibility to report suspicious and unusual transactions to the Financial Intelligence Centre: It is the responsibility of management to ensure that:

- All employees can identify suspicious and unusual transactions, and;
- Know how to report these transactions;
- Identification and verification of suppliers by applicable employees as required by FICA are complied with.
- Records of the identification and verification documents are kept as required by FICA, by the employees who are required to comply with this requirement.

 - the business has been used in any way for money laundering purposes or to facilitate the commission of an offence relating to the financing of terrorist and related activities.

Non-compliance with AML/CFT requirements is a very serious offence and could result in dismissal or contract termination. Failure by any employee to adhere to any of the requirements and obligations contained herein shall result in disciplinary action being taken against the relevant employee in terms of disciplinary action.

Suspicious Activity

There are signs of suspicious activity that suggest money laundering. These are commonly referred to as "red flags." If a red flag is detected, additional due diligence will be performed before proceeding with accepting the client. If a reasonable explanation is not determined, the suspicious activity shall be reported to the AML Compliance Committee. Examples of red flags are:
