1.2.2. the singular includes the plural and vice versa; and

1.2.3. natural persons include created entities (corporate or unincorporated) and the state and vice versa;

1.3. the following terms shall have the meanings assigned to them hereunder and cognate expressions shall have corresponding meanings, namely:

1.3.1. “**Account**” means any account of yours or Joint Account, as applicable, opened with us for the purposes of executing Transactions with us in foreign exchange Commodities, CFDs or other Financial Instruments;

- 1.3.4. “**Affiliate**” of any person means any other person directly or indirectly controlling or controlled by, or under direct or indirect common control with, such person. For purposes of this definition, “control” when used with respect to any person means the power to direct the management and policies of such person, directly or indirectly, whether through the ownership of voting securities or otherwise, and the terms “controlling” and “controlled” have meanings correlative to the foregoing
- 1.3.5. “**Agent**” means GCMT SA acting as an agent for GCMT LIMITED Seychelles (the Principal)
- 1.3.6. “**Applicable Law**” means:
- 1.3.6.1. the FAIS Act, including all applicable board notices;

- 1.3.8. “**Business Referrer**” or “**BR**” means any person with whom CMTrading has entered into a Business Referrer Agreement in terms of which they refer potential clients to CMTrading;
- 1.3.9. “**CFD**” means a contract for differences; CFDs, an over-the-counter (OTC) product which can be traded with the Company, as the counterparty, to all transactions undertaken. The

price of CFDs is based on the price of the underlying instrument and is not traded on an exchange. Price offered by the Company is displayed as the “bid”/”ask” quotes obtained from service/liquidity providers chosen by the Company, with additional “mark-up/mark-down” from the prices obtained. In cases where the data provided by the Company’s service providers as well as the liquidity providers is temporarily unavailable, the Company may set prices at its own discretion. Along with the opening/closing of the market for the underlying future instruments, gaps in market prices may be experienced. Due to the volatility caused during these periods, usually associated with low liquidity and/or followed by significant movements in prices, trading can involve additional risks which should be taken into consideration when making trading decisions. The Company reserves the right to adjust the margin requirements on any financial instruments based on the underlined market conditions. All CFD contracts are cash settled. Some CFDs have an intraday break, in addition to a daily closing. During these times, no transactions can take place, i.e. either opening or closing of positions, nor placing and/or cancelling “stop” and “limit” orders. All trading functionalities cease during intraday breaks, daily closing and market holidays. Details are displayed on the Company's website. CFD Indices, either Spot or Future, are based on the relevant underlined stock index, future contract, whereby the prices are moving in correlation with the prices of the relevant underlined index, however, do not result in the delivery of any share or instruments to or by the Client. Margin requirement is calculated by multiplying the “Contract Size”, the traded price, the volume (number of lots) and the margin requirement percentage (applied by the Company), further detailed under the MT4/5 Trading Platform.

Contract Size * Traded Price * No. of Lots * margin requirement %

CFD instruments that are based on the underlined “futures” contracts are subject to expiration and should be closed, prior to the last trading day (found on PO on website), otherwise any open positions, for the specific 5 CFD instruments, shall be closed by the company based on the last quoted price (Bid/Ask) of the last trading day and any remaining pending orders, will be cancelled without prior notice. Open Sell trades will be closed on the last Quoted Ask Price. Open Buy trades will be closed on the last Quoted Bid Price. The company will also set the CFDs subject to expiration to close only mode - refer to the PO for details. “First Trading Date”, “Trading Only for Closing” and “Last Trading Date” are defined by the Company in its own discretion.

CFD on Shares

Margin requirements are calculated by multiplying the “Contract Size”, the traded price, the volume (number of lots) and the margin requirement percentage (applied by the Company), further detailed under the MT4/5 Trading Platform. CFD shares may be subjected to trading halts and price limits due to the “limit up” and/or “limit/down” or other rules applied by the relevant exchange. The Company may not be able to accept new requests for transacting during the specific period.

- 16.8.7. neither give any undertaking nor make any warranty or representation that any investment performance that may be achieved with or through an Expert Advisor or third-party hosting or trading application with another broker or dealing service can or shall be achieved using CMTrading's Trading Systems.

16.9. The provisions of clause 16.8 shall apply irrespective of whether CMTrading (or its Affiliates) offer, promote or endorse to you the Expert Adviser or a third-party hosting or trading application. CMTrading reserves the right to add or remove third party applications at any time and without prior notice.

17. ORDERS AND CONFIRMATIONS

17.1. Placing of Instructions.

The manner in which you may place instructions or communicate Orders and any conditions that may apply are set out in the CMTrading's Trading Handbook on the CMTrading website. The Trading Handbook provisions may be changed at any time without further notice to you.

17.2. CMTrading may in its sole discretion refuse to accept any Order from you, but will notify you of any such refusal, without giving any reasons, promptly following receipt of your instructions. CMTrading may cancel any instructions previously given by you provided that CMTrading have not

acted on your instructions. Without prejudice to the generality of the foregoing, CMTrading reserves the right to limit the number of open positions that the customer may enter or maintain in the customer's Account. CMTrading reserves the right, in its sole discretion, to refuse to accept any Order opening a new position or increasing an open position. Acceptance of your Order will be evidenced by CMTrading's confirmation of that Order. The validity of any Order shall not, however, be affected by any failure or delay in such Order being confirmed. Acceptance of any Order does not constitute any acknowledgment agreement or representation that for a Margin Transaction your Initial Margin or Margin requirement in respect of the Order or your existing Order is satisfied.

17.3. Regulated Market.

You acknowledge and agree that by executing the Customer Account Application, that you have given us your prior express consent to execute all Orders outside a regulated market or multi-lateral trading facility (as such terms are defined by Act.)

17.4. Confirmation of Orders and Account Statements.

We may send you confirmations and Account statements electronically or provide you with online access to confirmations and Account statements stored on your CMTrading website Account. You must notify us in writing if you wish to receive confirmations in hard copy rather than electronically. Each confirmation will, in the absence of a Manifest Error (as defined in clause 19.1), be conclusive and binding on you, unless we receive any objection from you in writing within two Business Days of the date of the relevant confirmation or we notify you of an error in the confirmation within the same period.

17.5. Intermediate Brokers and Other Agents.

We may, at our sole and absolute discretion, arrange for any Transaction to be affected with or through the agency of an intermediate broker, who may be an Affiliate of ours, and may not be in the Republic. Neither we nor our respective directors, officers, employees or agents will be liable to you for any act or omission of an intermediate broker or agent. No responsibility will be accepted for intermediate brokers or agents selected by you.

17.6. Order Execution Policy.

GCMT SA acts as an agent for GCMT Limited in Seychelles. GCMT SA will deal with you as an agent in relation to any Orders, while GCMT LIMITED Seychelles will deal with your trades as a Principal. Notwithstanding that we deal with you as Principal and that we may provide you with two-way price quotes, we acknowledge that if you are a Retail Client, that you may rely upon us to provide or display bid and offer prices which are the best available prices for retail investors on a consistent basis. Your Orders will be handled in accordance with our Order Execution Policy, a summary of which is in the Trading Handbook on the CMTrading website. While we seek to ensure that the prices we display are competitive, CMTrading is not able to give a warranty, express or implied, that the bid and offer prices displayed on CMTrading Trading Systems always represent the best prevailing market prices for retail investors. Our quoted prices may reflect market volatility or additional costs and charges, which may result in an increase in the Spread as well as per Transaction or per-lot Commission.

17.7. Aggregation of Orders

We may combine your Order with any Orders of our own and Orders of other customers. By combining your Orders with those of other customers, we must reasonably believe that this is in the overall best interests of our customers. However, on occasions aggregation may result in you obtaining a less favorable price. Where an Order for a particular customer has been aggregated with Orders for another customer, we will take great care to ensure a fair allocation of investments available across those Orders.

18. MARKET OBLIGATIONS & MARKET ABUSE

18.1. Market Obligations.

With respect to use of the Trading Systems which may give direct connectivity to a Market, you shall neither engage in, nor facilitate, nor fail to take reasonable steps to prevent:

- 18.1.1. any action or any course of conduct that has the effect, or may be expected to have the effect, of artificially and/or abnormally moving the price or value of any securities admitted to the Market or any instrument underlying such securities or the level of any index of which such securities are a component;

- 18.1.2. entering artificial orders or otherwise entering into or causing any artificial transaction;
- 18.1.3. reporting a fictitious transaction or any other false data to the Market or other competent authority or causing such data to be input into any of their systems;
- 18.1.4. any action or any course of conduct that creates or may reasonably be expected to create any false or misleading impression as to the market in, or price or value of, any securities;
- 18.1.5. any other action or any other course of conduct that may damage the integrity and the transparency of the Market; or
- 18.1.6. agreeing or acting in concert with, or providing any assistance to, any person with a view to or in connection with any action or course of conduct referred to in clauses 18.1 to 18.1.5 inclusive.

You shall not use the Trading Systems for Orders or Transactions for or in connection with any activity which may constitute a fraudulent or illegal purpose or market abuse or otherwise use of the Trading Systems in contravention of any Applicable Laws. For the purposes of this Customer Agreement,

"Market Abuse" means behavior in relation to investments which involves insider dealing, market manipulation or market distortion in breach of Applicable Laws. You undertake to familiarize yourself and comply with any Applicable Laws concerning the short sale of securities if you seek to execute a short sale transaction and you will ensure that your use of the Trading Systems will not result in a breach by us (or our Affiliate) of any Applicable Laws concerning the short sale of securities or any terms of this Customer Agreement concerning short sale orders or transactions. If you breach this clause, we reserve the right to treat any Order or resultant Transaction as void and to cancel, close or unwind any resultant Transaction.

- 18.2.2. Should you execute trading strategies with the objective (in the Company's opinion) of exploiting misquotations, technical issues, or acting in bad faith, the Company shall consider it as abusive behavior.

Should the company determine, at its sole discretion and in good faith, that you are taking advantage, benefiting, attempting to take advantage or to benefit from misquotation, technical issues, taking bad faith advantage of closed market moves or that you are committing any other improper or abusive trading, we will have the right to close any open position subject to such abusive behavior, or cancel any Profit or Losses that were booked as a result of you using abusive strategies as described above. For the benefit of doubt, we have the sole right to determine what market abuse is, allowing good faith discretion only.

The Company reserves the right to take additional measures it deems necessary, depending on the circumstances and the severity of the abusive act, such as to:

18.2.2.1.1. restrict your access to instantly tradable quotes, and/or;

18.2.2.1.2. restrict your access to only certain assets;

18.2.2.1.3. restrict leverage in specific assets or in the trading account; or

18.4. We reserve the right to limit your use of the Trading Systems and apply pre-execution trading controls as may be appropriate to preserve compliance with Applicable Laws or any other trading limits which may be notified to you.

19. MANIFEST ERRORS

19.1. A "Manifest Error" means a manifest or obvious misquote by us, or any Market, Liquidity Provider, or official price source on which we have relied in connection with any Transaction, having regard to the current market conditions at the time an Order is placed as we may reasonably determine. When determining whether a situation amounts to a Manifest Error, we may consider any information in our possession, including information concerning all relevant market conditions and any error in, or

lack of clarity of, any information source or announcement. We will, when making a determination as to whether a situation amounts to a Manifest Error, act fairly towards you, but the fact that you may have entered into, or refrained from entering into, a corresponding financial commitment, contract or Transaction in reliance on an Order placed with us (or that you have suffered or may suffer any loss), will not be taken into account by us in determining whether there has been a Manifest Error.

19.2. In respect of any Manifest Error, we may (but will not be obliged to):

19.2.1. amend the details of each affected Transaction to reflect what we may reasonably determine to be the correct or fair in terms of such Transaction absent such Manifest Error; or

19.2.2. declare any or all affected Transactions void, in which case all such Transactions will be deemed not to have been entered.

19.3. We will not be liable to you for any loss (including any loss of profits, income or opportunity) you or any other person may suffer or incur as a result of or in connection with any Manifest Error (including any Manifest Error by us) or our decision to maintain, amend or declare void any affected Transaction, except to the extent that such Manifest Error resulted from our own willful default or fraud, as determined by a competent court in a final, non-appealable judgment.

20. MARGIN TRANSACTIONS: CONTRACTS FOR DIFFERENCE, ROLLING SPOT FOREX & OTHERS

20.1. With respect to any Margin Transactions (including all CFDs and Rolling Spot Forex), you acknowledge and agree that unless otherwise agreed in a formal written instrument, you will not be entitled to delivery of, or be required to deliver, any Reference Asset nor will you acquire any interest in any Reference Asset.

20.2. To close in whole or in part a Margin Transaction (for example a CFD or Rolling Spot Forex Transaction), you must enter a second reverse Transaction that is a buy Transaction if the first Transaction was a sell Transaction or vice versa). Where there is more than one open Transaction with the same characteristics, the Transaction opened earliest will be closed first unless otherwise provided in the Trading Policies and Procedures.

Additionally, should we permit “hedging” (an account being long and shorts in the same Transaction position in the same account) or close out by the customer on a “special instruct” basis (customer identifies position(s) to be closed out), the customer will be responsible for closing open position(s) on a special instruct basis.

Close-out and novation of opposing contracts policies and procedures are subject to change in our absolute discretion and will be notified to you when such change is made.

20.3. You acknowledge and agree that CMTrading will have the right to close any Expiry Transaction in its sole and absolute discretion without notice if the Reference Asset is a derivative Financial Instrument, or Commodity which may settle on expiry by a delivery other than in cash, at a reasonable period prior to the expiry date as determined in the sole and absolute discretion of CMTrading. CMTrading will not be subject to any obligation to roll over a position in such a derivative Financial Instrument or Commodity.

20.4. **The price of an Expiry Transaction will be:**

20.4.1. the last traded price at or prior to the close or the applicable official closing quotation or value in the relevant Reference Asset as reported by the relevant Market, errors and omissions excluded; plus or, as the case may be, minus;

20.4.2. any Spread that we apply when such an Expiry Transaction is closed. Details of the Spread that we apply when a particular Expiry Transaction is closed, are available on request. You acknowledge that it is your responsibility to make yourself aware of the Last Dealing Time for any Expiry Transaction.

20.5. **Additional Close-Out Rights**

CMTrading may close any CFD Transaction in its sole and absolute discretion at any time without notice:

- 20.5.1. if it is a 'sell' CFD Transaction, and due to illiquidity in the relevant Reference Asset we are unable to borrow a sufficient quantity of such Reference Asset to settle any hedge position related to or in connection with the CFD Transaction;
- 20.5.2. if we are required, at any time, by a lender to return any Reference Asset borrowed by us which relates to the CFD Transaction and we are then unable to maintain a hedge position in respect of the CFD Transaction;
- 20.5.3. if at any time we are otherwise unable to establish or maintain a hedge position, or any other Hedging Disruption occurs, in respect of the CFD Transaction or the continuation of any such hedge is likely, in CMTrading's reasonable judgment, to become more burdensome to CMTrading.

20.6. Effects of Close-Out

With respect to any CFD Transaction that is closed out:

- 20.6.1. no further payments or deliveries are required to be made on or after the Closing Date, except for settlement payments pursuant to clause 20.6.3 below; and
- 20.6.2. any and all amounts payable by either party in settlement of such CFD Transaction are immediately due and payable.
- 20.6.3. Without prejudice to the provisions of clause 20.6.1 and 20.6.2 above, any and all obligations arising or existing between us as a result of the close-out of one or more CFD Transactions will be satisfied by the net settlement (whether by payment, set-off or otherwise) of all amounts due and payable between us, and the net amount determined to be payable by either party will be immediately due and payable.

20.7. Calculations

We will determine any closing price as soon as reasonably practicable after the Closing Date to reflect (without limitation):

- 20.7.1. the value, transferability, liquidity or volatility of the relevant Reference Asset;
- 20.7.2. the effect (or anticipated effect) of closing or terminating any hedge, contract or other trading position relating to the relevant CFD Transaction which we have or have had in place, or may reasonably have put in place, including the effect (or anticipated effect) of such event on the value, transferability, liquidity or volatility of such hedge, contract or other trading position;
- 20.7.3. any costs incurred (or anticipated to be incurred) by us or any of our Affiliates in terminating, liquidating or re-establishing any hedge, contract or other trading position related to or in connection with the relevant CFD Transaction; and
- 20.7.4. any loss of bargain, cost of funding or other loss or gain suffered or incurred (or anticipated to be suffered or incurred) by us or any of our Affiliates as a result of or in connection with the close-out of the relevant CFD Transaction.

20.8. Hedging Disruption

- 20.8.1. Notwithstanding anything to the contrary in this Trading Agreement, if CMTrading determines that a Hedging Disruption has occurred, or may occur, including a Hedging Disruption which is a result of any actual or imminent delay, disruption, suspension, or reduction in any payment or settlement in respect of any transaction or asset CMTrading deems necessary to hedge its CFD Transaction price risk, whether such Hedging Disruption arises directly or indirectly from the failure of a hedging counterparty to perform its obligations or otherwise, then you will be liable to CMTrading for any increased costs or expenses resulting from such Hedging Disruption (including any costs of unwinding, establishing or re-establishing a hedge) and CMTrading may upon notification of such costs to you deduct them from your Account or demand payment of such costs directly from you. If you fail to comply fully and by the required time with any such demand, this will constitute an Event of Default.

20.9. Adjustments

20.9.1. If any Reference Asset which is a Security is subject to possible adjustments as the result of any of the events set out in clause 20.10, we will determine what adjustment, if any, should be made to the Current Contract Value or Contract Quantity of any related CFD Transaction to account for the dilutive or concentrative effect of any such event to preserve the economic equivalent of such CFD Transaction prior to the relevant event or to reflect the effect of such event on such CFD Transaction. Any such adjustments will be effective as of a date determined by us.

20.10. Adjustment Events

The events to which clause 20.9 refers include the following:

- 20.10.1. a subdivision, consolidation or reclassification of shares, or a free distribution of shares to existing holders by way of bonus, capitalization or similar issue;
- 20.10.2. a distribution to existing shareholders of additional shares, other share capital or securities granting the right to payment of dividends or proceeds of liquidation of the issuer, or securities, rights or warrants granting the right to a distribution of shares or to purchase, subscribe, or receive shares, in any case for payment (in cash or otherwise) at less than the prevailing Market price per share; and
- 20.10.3. any event analogous to any of the foregoing events or otherwise having a dilutive or concentrative effect on the Market value of the relevant Reference Asset.

20.11. Merger Events and Take-Over Offers.

If there is a Merger Event or Take-Over Offer in respect of, or affecting any relevant Reference Asset, then, on or after the date of the Merger Event or at any time prior to the closing date of such Take-Over Offer, we will:

- 20.11.1. make such adjustment to the exercise, settlement, payment or any other terms of any related CFD Transaction as we may determine as appropriate to account for the economic effect, if

any, on the Reference Assets which is the subject of such Merger Event or Take-Over Offer (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Underlying Financial Instrument or to such CFD Transaction, which may, but need not, be determined by reference to any adjustment made in respect of such Merger Event or Take-Over Offer by a Market to futures or options on the relevant Reference Asset traded on such Market; and determine the effective date of any such adjustment.

20.12. Nationalization and Insolvency

If an issuer whose shares represent all or part of the Reference Asset for any CFD transaction:

- 20.12.1. has its shares or all or substantially all of its assets nationalized or expropriated, or such shares or assets are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality; or
- 20.12.2. becomes the subject of any voluntary or involuntary procedure seeking or proposing liquidation, re-organization, an arrangement or composition or other similar relief under any Insolvency Law, then the day on which such event occurs or is declared will be the Closing Date for such CFD Transaction. The closing price for such CFD Transaction will be such price as is notified by us to you.
- 20.12.3. No Adjustment Possible. If we determine that no adjustment could be made under this clause 20 which would produce a commercially reasonable result, we will issue a Closing Notice to you in respect of each related CFD Transaction. The date of such notice will be the Closing Date. The closing price will be such price as is notified by us to you.

20.13. Market Suspensions and De-listings

20.13.1. Market Suspensions.

If at any time trading, on any Market in any Reference Asset Instrument, is suspended, we will calculate the value of each related CFD Transaction with reference to the last traded price before the time of suspension, or the

closing price if no trading in such Reference Asset is undertaken during the Business Day on which a suspension occurs. If such a suspension continues for more than one Business Day, we have the right in our sole and absolute discretion to vary Margin requirements and rates. If such a suspension continues for five or more Business Days, we have the right to terminate each related CFD Transaction in our sole and absolute discretion at a closing price determined by us.

20.13.2. **De-listing.**

If a Regulated Market on which a Reference Asset is principally traded announces that pursuant to the rules of such Market such Reference Asset has ceased (or will cease) to be listed, traded or publicly quoted on such market for any reason (other than a Merger Event or Take-Over Offer) and is not immediately re-listed, re-traded or re-quoted on a Market or quotation system located in the same country as such Market (or in the case of any Market within the European Union, in any Member State of the European Union), either the day on which such an event occurs, or (if earlier) the day on which such event is announced, will in our sole and absolute discretion be the Closing Date for each related CFD Transaction irrespective of whether a Closing Notice is issued. The closing price for each such CFD Transaction will be such price as notified by us to you.

21. MARGIN

21.1. Margin Arrangements

As a condition of entering a Transaction, we may in our sole discretion require the deposit of funds or Collateral acceptable to us to secure your liability to us for any losses which may be incurred in respect of the Transaction (“Initial Margin”). Initial Margin is due and payable immediately as a condition to opening the relevant Transaction and we may decline to open any Transaction if you do not have sufficient available cash in your Account to satisfy the Initial Margin required for that Transaction at the time the relevant Order is placed. If there is an adverse movement in the price of a Transaction or Reference Asset or if we determine in our sole and absolute discretion that there is an increase in the risk of an adverse movement in the price of a Transaction or Reference Asset, we will require additional security from you in the form of cash deposits or other acceptable Collateral to supplement Initial Margin (“Variation Margin”).

GCMT will charge the going market rate between 2.5 % up to 4% with respect to all deposits and market rate between 2.5 % up to 4 % with respect to all withdrawals processed by bank wire.

In certain circumstances, GCMT reserves the right to pay out withdrawals at the same exchange rate the funds were deposited (minus a fee between 2.5 % up to 4% charge). GCMT has the sole right to determine when such action is required. Such a decision will be based on good faith practice.

21.2. Changes in Margin Requirements

Margin requirements may be set and varied without prior notice from time to time in our sole and absolute discretion to cover any realized or unrealized losses arising from or in connection with Transactions, including subsequent variation of any Margin rates set at the time Transactions are opened.

21.3. Form of Margin.

Margin must be provided by or on behalf of you in cash or other Collateral acceptable to us as determined by us in our sole and absolute discretion. You are obliged to maintain in your Account, always, sufficient funds to meet all Margin requirements. In addition, we will be entitled to treat any assets deposited with us by you from time to time (other than assets deposited for safe custody only) as Collateral against your Margin requirements. In all cases we will be entitled in our sole and absolute discretion to determine the value of any Collateral deposited with us. We are entitled to require payment of Margin of you (whether resident in the Republic or in another jurisdiction) by telegraphic transfer or any other method of immediate/electronic funds transfer acceptable to us. Only funds received net of any bank charges, which relate to the transfer, will be credited as paid.

21.4. Close-Out

In the event that there is insufficient Margin in your Account or in the event that the deposited Margin is not sufficient to meet the required Margin rates, as determined by us in accordance with clauses 21.1 of this Trading Agreement, and regardless of whether or not prior Margin Calls have been issued or not, we may in our sole discretion choose to close or terminate your Transaction and Account without notice to you immediately. This will not constitute an Event of Default. Without prejudice to the foregoing, any Transaction entered into by you or on your behalf which results in there being insufficient Margin to cover any actual or anticipated losses or liabilities in connection with your Account will constitute an Event of Default and we may in our discretion exercise our rights in clause 24 of this Trading Agreement, whether there has been a Margin Call or not. If we do not close or terminate your Transaction(s) where a Margin Call has not been honored or Margin due is outstanding, this shall not constitute a waiver of our rights nor any precedent with respect to the future conduct of your Account upon which you may rely.

21.5. **Margin Calls.**

CMTrading does not accept any obligation to make Margin Calls and you may not rely upon, nor have any legitimate expectation that CMTrading will make such Margin Calls within any specific time or at all. The absence of any Margin Call will not operate as a waiver of any of our rights or remedies under or in connection with this Trading Agreement. Notwithstanding the foregoing, CMTrading may from time to time and in its sole discretion, call upon and request that you deposit additional Margin or Collateral to secure your obligations to CMTrading. We shall be deemed to have made a Margin Call on you if we have left a message for you by telephone, email or through the platform message center requesting you to contact us, or if we are unable to leave a message and have used reasonable endeavors to contact you by telephone, email or through the platform. Any message we leave for you requesting you to contact us should be regarded as extremely urgent. We shall not be liable for any losses you may suffer because of any failure to respond to an actual or deemed Margin Call.

21.6. If you have more than one Account, we shall be entitled in our discretion (but shall not be obliged) to transfer and use available Margin, Collateral, or other funds from one Account for the purposes of discharging Margin requirements or liabilities in one or more of your other Accounts even if such transfer may result in the closure of open positions in any Account from which Margin, Collateral or other funds are transferred.

21.7. **Negative Pledge**

You undertake neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the Margin transferred to us, except a lien routinely imposed on all Securities in a clearing system in which such Securities may be held.

21.8. **Power to Charge**

You agree that we may, free of any adverse interest of yours or any other person, grant a security interest over Margin provided by you to cover any of our obligations to an intermediate broker or Market, including obligations owed by virtue of the positions held by us or another of our customers.

21.9. Power of Sale

If an Event of Default occurs, we may exercise the power to sell all or any part of the Margin. We shall be entitled to apply the proceeds of sale or other disposal in paying the costs of such sale or other disposal and in or towards satisfaction of the Secured Obligations.

21.10. General Lien

21.10.1. In addition, and without prejudice to any rights to which we may be entitled under this Customer Agreement or any Applicable Laws, we shall have a general lien on all property held by us or our Affiliates or our nominees on your behalf until the satisfaction of the Secured Obligations.

21.10.2. Any action taken by us in connection with or pursuant to a CFD or Rolling Spot Forex Contract or other Transaction by us at a time at which any Event of Default has occurred (whether or not we have knowledge thereof), shall be entirely without prejudice to our right to refuse any further performance thereafter and shall not in any circumstances be considered as a waiver of that right or as a waiver of any other rights of ours should any such Event of Default have occurred.

21.11. Security Interest

As a continuing security for the performance of all your obligations (whether actual or contingent, present or future) to us pursuant to or in connection with this Customer Agreement (“Secured Obligations”) you grant to us, with full title guarantee, a first priority fixed charge over, and security interest in, all non-cash Margin and other collateral (collectively “Collateral”) now or in the future provided by you to us or to our order or under our direction or control or that of a Market standing to the credit of your Account or otherwise held by us or any of our Affiliates or our or their nominees on your behalf.

21.12. Further Assurance

You agree to execute such further documents and to take such further steps as we may request from time to time to create, perfect, maintain or protect our charge and security interest referred to in clause

21.11 to be registered as owner of or obtain legal title to all Collateral, to secure further the Secured Obligations, or to enable us to exercise our rights or satisfy any Market requirement.

21.13. Substitution

You may not withdraw or substitute any property or asset subject to our charge and security interest referred to in clause 21.11 without our prior written consent.

22. RIGHTS OF SET-OFF

22.1. We may at any time set off, without prior notice to you or any other requirement, any obligation (whether or not such obligation is matured or contingent, whether or not arising under this Customer Agreement or under or in connection with any other agreement, transaction or instrument, and regardless of the Currency, place of payment or booking office of the obligation) you or any of your Affiliates may from time to time owe to us or any of our Affiliates, as reasonably determined by us, against any obligation (whether or not such obligation is matured or contingent, whether or not arising under this Customer Agreement or under or in connection with any other agreement, transaction or instrument, and regardless of the Currency, place of payment or booking office of the obligation) we or any of our Affiliates may then owe to you or any of your Affiliates, as reasonably determined by us.

22.2. To any cross-currency set-off, we may convert either obligation at the applicable market exchange rate selected by us on the relevant date.

22.3. If the amount of any obligation is unascertained, we may in good faith estimate that amount and set off in respect of the estimate, subject to us accounting to you when the amount of the obligation is ascertained.

22.4. Our rights under this clause 22 will be in addition to any other right of set-off or similar right we may have, whether as a matter of contract, under common law, or otherwise.

23. EVENTS OUTSIDE OUR CONTROL

23.1. This section refers to events, which may occur from time to time, and which prevent us from performing any or all our obligations ('Specific Events'). Specific events may include:

- a) non-performance by a third party, destruction caused by man or any similar event which is outside our reasonable control;
- b) instances of illegitimate actions, errors, failures, disruptions in our systems, technological or other infrastructure (irrespective of whether it belongs to us or a third party) against our servers;
- c) changes in the applicable legislation, any action of an official body or any other change in our legal or regulatory obligations as a result of unforeseen events;
- d) an act or omission by any financial or other institution that we are unable to predict and/or prevent;
- e) any event that prevents the Software or the systems from operating in an orderly or normal basis;
- f) abnormal market conditions, such as significant volatility or instability in the markets, or the industry as a whole, preventing us from providing our services in an orderly manner, including any instances where we are unable to receive data and/or we receive incorrect data from our service providers;
- g) any other event and/or circumstance which cannot be foreseen, within reason.

For the avoidance of doubt, a Specific Event is an event outside our control that, whilst it is reasonably likely to occur, or may be imminent, we cannot be expected to be prepared for, or we cannot prevent its occurrence.

23.2. Where we determine that a Specific Event has occurred, without prejudice to any other rights of ours under the Agreement, or the law, we may take the following course of action(s):

Without prejudice to any rights, you may have to refer a complaint to the FAIS Ombud. Each of the parties irrevocably:

- 30.2.1. agrees that the High Court of South Africa will have jurisdiction to settle any Proceedings and submits to the jurisdiction of such courts (if this will not prevent us from bringing any proceedings against you in the courts of any other jurisdiction); and
- 30.2.2. waives any objection which it may have at any time to the laying of venue in respect of any Proceeding brought in any such court and agrees not to claim that such Proceeding has been brought in an inconvenient forum or that such court does not have jurisdiction over it.

THIS IS A LEGALLY BINDING CONTRACT. DO NOT ACCEPT UNTIL YOU HAVE CAREFULLY READ ALL OF THE FOREGOING COMPLETELY AND COMPLETED THE ONLINE CUSTOMER ACCOUNT APPLICATION.

I/We understand the nature and risks of Margin Trading via spot forex, metals, commodities, and/or CFDs. I/We confirm that I/we have read, understood, and agree to be bound by the Trading Agreement, the Complex Products General Risk Disclosure Notice, Contracts for Differences – Commodities and Other Reference Assets Supplement. Finally, I confirm that I am aged 18 years or over and that the information provided by me in this application is accurate and correct.

SCHEDULE 1: COMPLEX PRODUCT - GENERAL RISK DISCLOSURE NOTICE

This notice is provided to you in compliance with Financial Sector Regulation Act. This notice does not disclose all the risks and other significant aspects of derivatives products such as futures and options. You should not deal in derivatives unless you understand the nature of the contract you are entering into and the extent of your exposure to risk. You should also be satisfied that the contract is suitable for you in the light of your circumstances and financial position.

Certain strategies, such as “spread” position or a “straddle”, may be as risky as a simple “long” or “short” position. Whilst derivatives instruments can be utilized for the management of risk, some investments are

unsuitable for many investors. Different instruments involve different levels of exposure to risk, and in deciding whether to trade in such instruments you should be aware of the following points:

1. CONTRACTS FOR DIFFERENCE - CFDs EXPIRATION AND ROLLOVER PROCEDURE

Contracts for Difference (CFD) is an arrangement made in financial derivatives trading where the differences in the settlement between the open and closing trade process are cash-settled. There is no delivery of physical goods or securities with CFDs, whose value is linked to an underlying Futures asset with expiration date or maturity.

Contracts for Difference can be linked to futures which can be entered into in relation to Commodities or the FTSE-100 index or any other index or share, as well as Currency. However, unlike other futures and options, these contracts can only be settled in cash. Investing in a CFD carries risks like investing in a future or an option and you should be aware of these. Transactions in CFDs may also involve a contingent liability and you should be aware of the implications of this as set out in clause 8 below.

Futures are derivative financial contracts obligating the buyer to purchase an asset or the seller to sell an asset at a predetermined future date and set price.

Futures—also called futures contracts—allow traders to lock in the price of the underlying asset or commodity. These contracts have expiration dates and set prices that are known upfront.

In normal trading, when Futures Contract reaches its Expiration date, all contracts of the quoted underlying month will be closed, and all open positions will be liquidated as soon as the contracts reached its Maturity. To provide CFDs trading without interruptions and to avoid an obligation to close any position by the Customers, CMTrading introduces generic and continuous CFD's of same underlying Futures but without closure, yet the Expiration will be handled automatically via the Trading Platform by adjusting the Customer's account balance without interrupting any of the open positions.

This adjustment known as **CFD Rollover Charge**:

Example of change from Expiring CFD to Generic CFD:

CL-AUG21 □ [why this sign?] Crude Oil

NASDAQ-SEP21 □ USTECH100

DOW-SEP21 □ US30

A full list of new generic instruments is presented on the site in the following link: <https://www.cmtrading.com/cfd-trading/cfds-expirations>

Up to 3 days prior to the official expiration date (Maturity), Accounts with Open Positions of the Expiring underlying Futures instrument will be adjusted to ensure Clients do not Gain/Loss due to the difference in price between Old and New Contracts. Clients will incur costs in relation to the Spread Cost in closing the Old Contract and opening the New Contract.

Information about upcoming Expiring CFDs is presented on our site at: <https://www.cmtrading.com/cfd-trading/cfds-expirations>

Clients with open positions, who do not wish to be debited or credited when the rollover occurs, are advised to manually close their positions before the CFD expiration date.

Calculation of CFD's Rollover

To calculate the **CFD Rollover Charge**, CMTrading takes the **Difference in Prices** between the two contracts (Old and New) from the Exchange at the end of the trading day before expiration then add **our Spread**. The resulting amount is either Credit or Debit to the Client Account via Trade Transaction; **CFDROLLOVER**

Formula:

[Number of Lots x Contract size x (New Contract Price - Old Contract Price) - Spread Cost]

***Spread Costs are calculated based on Market Spreads at the time of the Rollover Calculation.**

General Rule:

New Price < Old Price è Credit for Long Positions / Debit for Short Positions

New Price > Old Price è Debit for Long Positions / Credit for Short Positions

Example 1

Crude Oil Trade: 100 Barrels (0.1 Lot) Lot Size: 1,000 Barrels Old Contract Price: \$70.00 New Contract Price: \$70.40 Price Difference = \$0.40 (40 pips) Typical Spread: 3 pips (0.03)

For such Trade: Long Position: $(0.1 \times 1000 \times -0.40) - (0.03 \times 100) = -\43.00

Short Position: $(0.1 \times 1000 \times 0.40) - (0.03 \times 100) = \37.00

Debit/Credit will appear in your account according to the example below:

Example 2

NADAQ Trade: 1 Lot Lot Size: 20 Indices Old Contract Price: 15084.00 New Contract Price: 15080.00 Price Difference = -4 Index points (-400 pips) Typical Spread: 100 pips (0.50)

For such Trade:

Long Position: $(1 \times 20 \times 4) - (0.50 \times 20) = \70.00

Short Position: $(1 \times 20 \times -4) - (0.50 \times 20) = -\90.00

Debit/Credit will appear in your account according to the example below:

2021.07.29 13:33:59	buy	cfdrollover	1.00	1.00	2021.07.29 13:33:59	1.00	0.00	0.00	0.00	70.00	Expiration Charge
---------------------	-----	-------------	------	------	---------------------	------	------	------	------	-------	-------------------

All rollover adjustments are calculated in the currency the instrument is denominated in. If your account is denominated in a different currency, the system will automatically convert this to the currency of your account using the Market Rate at that time.

NOTES

***The above adjustment is subject to expiration charge/spread**

***CMTrading cannot provide rollover adjustment information before the adjustment occurs. If clients do not wish to incur a rollover adjustment fee, they should close open positions close to the expiration period before the scheduled rollover occurs.**

2. INVESTING IN ROLLING FOREX OR CURRENCY OPTIONS

2.1. Investing in rolling forex or currency options carries similar risks as investing in a future and you should be aware of these risks. Transactions in rolling forex or currency options may also have a contingent liability and you should be aware of the implications of this as set out in clause 4 below. In addition to standard industry disclosures contained in this Trading Agreement, you should be aware that margined currency trading is one of the riskiest forms of investment available in the financial markets and is only suitable for sophisticated individuals and institutions. Given the possibility of losing an entire investment, speculation in the foreign exchange market should only be conducted with risk capital funds that if lost will not significantly affect your personal or institution's financial well being.

2.2. If you have pursued only conservative forms of investment in the past, you may wish to study currency trading further before continuing an investment of this nature. You must also realize that the limited risk in buying options means you could lose the entire option investment should the option expire worthless. If you wish to continue with your investment, you acknowledge that the funds you have committed are purely risk capital and loss of your investment will not jeopardize

your style of living nor will it detract from your future retirement program. Additionally, you fully understand the nature and risks of currency investments, and your obligations to others will not be neglected should you suffer investment losses.

3. FOREIGN MARKETS.

Foreign markets involve different risks from South African markets. In some cases, risks will be greater. The potential for profit or loss from transactions on foreign markets or in foreign currency will be affected by fluctuations in foreign exchange rates. Such enhanced risks include the risks of political or economic policy changes in a foreign media, which may substantially and permanently alter the conditions terms, marketability, or price of a foreign currency.

4. RISK REDUCING ORDERS OR STRATEGIES.

The placing of certain orders (e.g., “stop loss” or “stop limits” orders) that are intended to limit losses to certain amounts may not always be affected because market conditions or technological limitations may make it impossible to execute such orders. Strategies using combinations of positions such as “spread” and “straddle” positions may be just as risky as or even riskier than simple “long” or “short” positions.

5. PRICES.

The prices quoted may not necessarily reflect the broader market. We will select closing prices to be used in determining Margin requirements and in periodically marking to market the positions in customer accounts. Although we expect that these prices will be reasonably related to those available on what is known as the interbank market, prices we use may vary from those available to banks and other participants in the interbank market. Consequently, we may exercise considerable discretion in setting margin requirements and collecting margin funds.

6. WEEKEND RISK.

Various situations, developments or events may arise over a weekend when currency, Commodity, and other markets generally close for trading, that may cause the markets to open at a significantly different price from where they closed on Friday afternoon. Our customers will not be able to use the

electronic communication systems to place or change orders over the weekend and at other times when the markets are generally closed. There is a substantial risk that stop-loss orders left to protect open positions held over the weekend will be executed at levels significantly worse than their specified price.

7. ELECTRONIC TRADING.

CMTRADING engages the use of electronic trading systems and communication networks to facilitate trades. Customers that trade exposes you to risks associated with the system including the failure of hardware and software system or network down timed access or connection failures.

8. CONTINGENT LIABILITY TRANSACTIONS.

Contingent liability transactions, which are margined, require you to make a series of payments against the purchase price, instead of paying the whole purchase price immediately. You may sustain a total loss of the Margin you deposit with your dealer to establish or maintain a position. If the market moves against you, you may be called upon to pay substantial additional Margin at short notice to maintain the position. If you fail to do so within the time required, your position may be liquidated at a loss, and you will be liable for any resulting deficit. Even if the Transaction is not margined, it may still carry an obligation to make further payments in certain circumstances over and above any amount paid when you entered into the contract. Contingent liability transactions, which are not traded on or under the rules of a recognized or designated investment exchange, may expose you to substantially greater risks.

9. COLLATERAL.

If you deposit collateral as security, you should ascertain how your collateral will be dealt with. Deposited collateral may lose its identity as your property once dealings on your behalf are undertaken. Even if your dealings should ultimately prove profitable, you may not get back the same assets, which you deposited and may have to accept payment in cash.

10. COMMISSIONS.

Before you begin to trade, you should obtain details of all commissions and other charges for which you will be liable. If any charges are not expressed in money terms (but, for example, as a dealing spread), you should obtain a clear written explanation, including appropriate examples, to establish what such charges are likely to amount to in specific money terms.

11. INSOLVENCY.

Any insolvency or default may lead to positions being liquidated or closed out without your consent. In certain circumstances, you may not get back the actual assets, which you lodged as collateral, and you may have to accept any available payment in cash.

You should only engage in CFD or Rolling Spot Forex trading if you are prepared to accept a high degree of risk and in particular the risks outlined in the Risk Warning Notice. You must be prepared to sustain the total loss of all amounts you may have deposited with your firm as well as any losses, charges (such as interest) and any other amounts (such as costs) we incur in recovering payment from you.

SCHEDULE 2: CONTRACTS FOR DIFFERENCE – COMMODITIES AND OTHER REFERENCE ASSETS SUPPLEMENT

SCOPE

This Schedule supplements and amends the Customer Agreement as expressly provided below. Defined terms in the Customer Agreement shall be assigned the same meaning in this Schedule. In the event of any conflict or inconsistency between the Customer Agreement and this Schedule, the provisions in this Schedule shall prevail. You acknowledge and agree that, by executing the Customer Account Application, you agree to be bound by the terms of this Schedule.

1. SERVICES

- 1.1. Orders for execution of a CFD Contract, unless otherwise agreed by us, are to be given to us electronically through the CMTrading Online Trading System or Meta Trader Online Trading

System to buy at the quoted offer price (“long position”) or sell at the quoted bid price (“short position”) for the relevant Reference Asset.

- 1.2. You acknowledge and agree that unless otherwise agreed in a formal written instrument you will not be entitled to delivery of, or be required to deliver, any Reference Asset nor will you acquire any interest in any Reference Asset.
- 1.3. Any market data specific to CFDs provided by CMTrading or third party service providers and displayed on the CMTrading website or any Trading Systems, is being displayed for informational purposes only. CMTrading does not guarantee the completeness or accuracy of such information and will not be held liable if any such data or information is inaccurate or incomplete in any respect, and neither CMTrading, nor any third party providers, are responsible or liable for any actions you take or do not take based on such data or information. Such data or information is proprietary to CMTrading and/or any such third-party service provider and you are not permitted to retransmit, redistribute, publish, disclose, or display in whole or in part such data or information to any third parties except as may be required by any law or regulation. You acknowledge and agree that CMTrading will have the right to close any Transaction in its sole and absolute discretion without notice if the Reference Asset is a derivative Financial Instrument or Commodity which may settle on expiry by a delivery other than in cash, a reasonable period prior to the expiry date as determined in the sole and absolute discretion of CMTrading. CMTrading will not be subject to any obligation to roll over a position in such a derivative Financial Instrument or Commodity.

2. ACCEPTANCE OF ORDERS AND OPENING OF CFD CONTRACTS

- 2.1. If an Order has been executed in whole or in part, it will not be possible for you to cancel the Order to the extent that the Order has been executed.
- 2.2. We reserve the right to limit the number of open positions you may enter or maintain in your Account. We also reserve the right, in our sole discretion to refuse to accept any Order opening a new position or increasing an open position.

3. CLOSING A CFD CONTRACT

- 3.1. To close any CFD Contract in whole or in part you must enter a second CFD Contract in relation to the same Reference Asset as the first CFD Contract, but you must sell if the first CFD Contract was a purchase, and you must purchase if the first CFD Contract was a sell. We will treat your Order to open the new position as an instruction to close the existing position to the extent of the size of the new position. If the new position is greater in size than the first position, then the first position will be closed in full and a CFD Contract opened in relation to the excess size of the new position.

- 3.2. You acknowledge that Spreads, including market Spreads, can and do widen significantly in some circumstances, that they may not be the same size and that there is no limit on how large they may be. You acknowledge that when you close a Transaction, the Spread may be larger or smaller than the Spread when the Transaction was opened. For Transactions transacted when the Market of any Reference Asset is closed or in respect of which there is no Market for the Reference Asset, the bid and offer price figures that we quote will reflect what we believe the market price in an investment would be at that time. You acknowledge that such figures will be set by us at our reasonable discretion. Our quotation is not guaranteed to be within any specific percentage of the quotation of the Market of the Reference Asset, and the Spread quoted by us will reflect our view of prevailing market conditions. You undertake and agree not to use our bid and offer prices for any purpose other than for your own trading purpose, and you agree not to distribute our bid and offer prices to any other person whether such redistribution be for commercial or other purposes.

- 3.3. In addition to our rights at clause 22 of this Customer Agreement and our rights pursuant to clause 2.3 of this Schedule, we may close any Transaction in our sole discretion at any time without notice if:
 - 3.3.1. if it is a 'sell' Transaction, and due to illiquidity in the relevant Reference Asset we are unable to borrow enough such Reference Asset to settle any underlying hedge position in respect of the Transaction; or

 - 3.3.2. if we are required, at any time, by a lender to return any Reference Asset borrowed by us which relates to a Transaction, and we are then unable to maintain a hedge position in respect of that Transaction; or

3.3.3. if at any time we are otherwise unable to establish or maintain a hedge position or any other Hedging Disruptions occurs in respect of a Transaction or the continuation of any such hedge or Hedging Disruption is likely, in our reasonable judgment, to become more burdensome to us.

3.4. Effects of Close-Out.

With respect to any Transaction that is closed out by us pursuant to or as contemplated by the terms of the Trading Agreement:

3.4.1. except as may be otherwise specified in this Trading Agreement, the Closing Date will be the date designated by us to you and at a closing price as determined by us;

3.4.2. no further payments or deliveries are required to be made on or after the Closing Date, except for settlement payments as provided below; and

3.4.3. all amounts payable by either party in settlement of such Transaction are immediately due and payable.

All obligations arising or existing between us because of the close-out of one or more Transactions will be satisfied by the net settlement (whether by payment, set-off or otherwise) of all amounts due and payable between us, and the net amount determined to be payable by either party will be immediately due and payable.

4. EXPIRY TRANSACTIONS

Unless otherwise informed, if you do not close an Expiry Transaction on or before the Last Dealing Time then, we will close your Expiry Transaction as soon as we have ascertained the price of the Expiry Transaction. The price of the Expiry Transaction will be (a) the last traded price at or prior to the close or the applicable official closing quotation or value in the relevant Reference Asset as reported by the relevant exchange, errors and omissions excluded; plus, or minus (b) any Spread that we apply when such an Expiry Transaction is closed. Details of the Spread that we apply when a particular Expiry Transaction is closed are available on request. You acknowledge that it is your responsibility to make yourself aware of the Last Dealing Time and of any Spread or Commission that we may apply when you close an Expiry Transaction.

5. HEDGING DISRUPTION

Notwithstanding anything to the contrary in this Trading Agreement, if we determine that a Hedging Disruption has occurred, or may occur, including a Hedging Disruption which is a result of any actual or imminent delay, disruption, suspension, or reduction in any payment or settlement in respect of any transaction or asset we deem necessary to hedge our Transaction price risk, whether such Hedging Disruption arises directly or indirectly from the failure of a hedging counterparty to perform its obligations or otherwise, then you will be liable to us for any increased costs or expenses resulting from such Hedging Disruption (including any costs of unwinding, establishing or re-establishing a hedge) and we may upon notification of such costs to you deduct them from your account or demand payment. If you fail to comply fully and by the required time with the obligation to make payment this will constitute an Event of Default.

6. MARKET SUSPENSION AND DELISTING

- 6.1. If at any time trading on a regulated Market is suspended in any Reference Asset which is listed on a Market, we shall calculate the value of the CFD with reference to the last traded price before the time of suspension, or a closing price as reasonably determined by CMTrading if no trading in that Reference Asset is undertaken during the Business Day on which a suspension occurs. If the aforesaid suspension continues for five Business Days, we and you may in good faith agree a Closing Date and a value of the CFD. In the absence of such agreement, the CFD shall remain open in accordance with the provisions of this clause until such time as the aforesaid suspension is lifted or the CFD is otherwise closed. During the term of a CFD whose Reference Asset is suspended we have the right to terminate the CFD at our discretion and to amend or vary Margin requirements and Margin rates.
- 6.2. If a Regulated Market (as defined in the FCA's Rules), on which a Reference Asset is principally traded, announces that pursuant to the rules of such Market the relevant Reference Asset has ceased (or will cease) to be listed, traded or publicly quoted on the Market for any reason and is not immediately re-listed, re-traded or re-quoted on the Market or quotation system located in the same country as the Market (or where the Market is within the European Union, in any Member State of the European Union), or already so issued, quoted or traded the day on which such event occurs, or (if earlier) is announced shall be the Closing Date. The closing price will be such price as notified by us to you.

SCHEDULE 3: ORDER EXECUTION POLICY

1. BEST EXECUTION

We deal with you as principal on our own account however we consider that the prices we quote on our Trading Systems against which you execute transactions with us constitute the provision of a transaction execution service which we undertake on your behalf and upon which you as a Retail Client rely upon. Accordingly, we take all reasonable steps to obtain firm price quotes for execution, as further described below (and subject to Order Execution Risks also noted below), to achieve the best possible result for you while considering the total consideration payable (excluding our charges), representing the price of the financial instrument and the costs related to execution. Nevertheless, whenever there is a specific instruction from you, we shall execute the order following the specific instruction. Our Order Execution Policy does not, however, guarantee that execution at our quoted prices (after deducting our charges which may be included in the quoted price) will always be executed at a price which is as good as, or better than, one which might have been available elsewhere.

2. EXECUTION COUNTERPARTY & CHARGES

Your orders will be executed with us unless we inform you otherwise. Our charges may be incorporated as a mark-up or mark-down (the difference between the price at which we take a principal position and the transaction execution price with you). We may alternatively agree to charge a commission or a combination of commission and mark-up or mark-down. Our charges are not considered in determining best execution prices. Our typical dealing spread together with information about our average speed and rate of transaction execution is published on our website under Pricing and Execution.

3. EXECUTION VENUE

3.1. FOREIGN EXCHANGE

Our price quotes are generally derived from prices provided to us by selected top tier global banks in the wholesale foreign exchange markets which we believe will provide the best available prices to you on a consistent basis.

3.2. GOLD AND SILVER

Our price quotes are generally derived from prices provided to us by selected top tier global banks in the wholesale gold and silver markets which we believe will provide the best available prices to you on a consistent basis.

3.3. OTHER COMMODITY CFDs

Our price quotes are generally derived from quoted or execution prices from the following derivative exchanges for the following commodities and which we believe will provide the best available prices to you on a consistent basis:

- **Gold, Silver, Aluminium, Zinc, Oil, Wheat, Cotton, Crude Oil, Coffee, Copper, Corn, Brent, Natural Gas, Sugar**

3.4. INDEX CFDs

Our price quotes are generally derived from quoted or execution prices for the underlying reference assets from the following derivatives exchanges with respect to the following indices which we believe will provide the best available prices to you on a consistent basis.

- 3.4.1. **CAC, DAX, DOW, FTSE, NASDQ, S&P, VIX, AEX, ASX, Hang, IBEX, JSE, MSCIS, Nikkei, SMI, SPMIB, USD Index**

4. CLOSED MARKETS

Our foreign exchange services are offered 24 hours daily on Business Days. Full details of trading hours are published on our website. Commodity CFDs and Index CFDs are traded only during the hours when the underlying execution venues identified above are open for trading. Full details of these trading hours are available on our website.

5. GAPPING

Gapping, as described below, can occur when an underlying execution venue is closed with the result that on re-opening of the execution venue the price of the underlying commodity or index product (and therefore our derived CFD price) can be markedly different from the closing price, with no opportunity for you to close your trade before the execution venue re-opens.

6. ORDER EXECUTION RISKS

6.1. SLIPPAGE

We take reasonable steps so that execution of our quoted prices will obtain the best possible result for you at the time the quote is provided, however, fast-moving markets may result in execution of a transaction at a price which has ceased to be the best market price.

6.2. GAPPING/VOLATILITY

There may be significant market movement after a news announcement or economic event or between the close and re-opening of a market which will have a significant impact on the execution of a pending order. Clients should be aware of the following risks associated with volatile markets, especially at or near the close of the standard trading session:

6.2.1. an order may be executed at a substantially different price from the quoted bid or offer, or the last reported trade price at the time of order entry, or an order may be only partially executed or may be executed in several shapes at different prices: and

6.2.2. opening prices may differ significantly from the previous day's closing price.

6.3. TRADING SYSTEM OR INTERNET CONNECTIVITY EXECUTION DELAYS

Delays in execution beyond our control may occur as a result of technical failures or malfunctions in connection with use of the Trading Systems or internet connectivity or processing speed for which we do not accept responsibility.

7. NO FIDUCIARY DUTY

Our best execution commitment does not mean we owe you or assume any fiduciary responsibilities other than those imposed by Applicable Laws and agreed in the Trading Agreement.

8. MONITORING AND REVIEW

We will monitor the effectiveness of our order execution arrangements and execution policy to identify and, where appropriate, correct any deficiencies. We shall notify you of any material changes to our order execution arrangements or execution policy.

RISK WARNING:

Trading Foreign Exchange (Forex) and Contracts for Differences (CFD's) is highly speculative, carries a high level of risk and may not be suitable for all investors. You may sustain a loss of some, or all, of your invested capital. Therefore, you should not speculate with capital that you cannot afford to lose. You should be aware of all the risks associated with trading on margin.
